

Vital Link™ for Healthcare

Stop Paging, Start Communicating

With Mutare's Vital Link™ Smart Notification, your enterprise will always be able to get the right message to the right person at the right time. That's because Vital Link is actually three systems in one. Vital Link combines Mass Notification, Secure Smartphone Communications and Customer Engagement into a single system. All for less than you would pay for one system by itself.

“

With something as critical as an emergency communications system, it gives me great peace of mind knowing our solution is Mutare's.”

— Brian Shepard,
Assistant Director of Telecommunications,
St. Joseph's University

Vital Link™

Smart Notification

Secure 2-Way Communication

[HIPAA Compliant]

- Closed loop encrypted communication to and between smartphones.
- Replaces one-way paging.
- Improves workflow and reduces communication errors.
- Includes reporting analytics for regulatory compliance.

Mass/Group Notification

[Multi-Channel]

- Rapid mass notification for groups large and small.
- Issue evacuation, shelter in place, personnel recall and closing notices in minutes.
- Full reporting, real-time dashboards and message acknowledgment status.

Patient Engagement

[Remind, Confirm, Survey]

- Supports appointment reminders, delivery notices and real-time acknowledgments.
- Engages customers with surveys.
- Customizable mobile apps to securely access contact center and customer support.

Deployment Options

Vital Link can be hosted in the Mutare cloud, deployed on premise or in a hybrid manner to meet functional requirements.

Multi-Channel Support

Send messages by phone, email, text, SMS, IM, secure client, RSS and Twitter ensuring delivery even under the most challenging situations.

Benefits

- Increase revenues and customer loyalty with engagement.
- Decrease costs with multi-functionality.
- Document regulatory compliance with full reporting and analytics.
