AVAYA
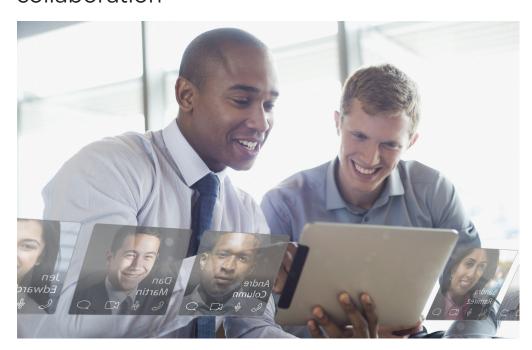

The Power of We™

Avaya Flare® Communicator for iPad Device

Simplifying mobile communication and collaboration

Handle your phone calls, instant messages, presence, contacts and launch e-mail, all from your Avaya Flare® screen.

With the Avaya Flare® Communicator for iPad Device, Avaya is delivering its innovative interface for real time communications to iPad device users.

Available from the Apple App Store—simply download and get started.

iPad devices and other consumer-based tools, such as smartphones, are rapidly taking their place in today's enterprise communication environments. What's needed are the infrastructure and client software that make it possible to take full advantage of these new options.

Avaya is ready, delivering:
- The SIP-based infrastructure (Avaya Aura® communications) needed to accommodate the widest range of devices.
- The breakthrough software client (Avaya Flare® Experience) specifically designed for real time collaboration.

Avaya Flare® Communicator for iPad Device extends the powerful Avaya Flare Experience directly to iPad users.

A software-only solution that can be easily downloaded (from the Apple App Store), it is the first step in extending the Avaya Flare Experience to non-Avaya devices.

An App for enterprise communications

By delivering the intuitive graphical design of Avaya Flare® Experience —"spotlights," media menu, notification bar and contact cards— Avaya Flare Communicator for iPad Device provides a new level of collaboration for users.

Now your employees can use iPad devices for:

• Easy, ubiquitous access to the real time communications tools they rely on every day: phone, presence, IM, etc.

• Blending real time communications and business processes, such as mobile sales.

• Taking advantage of Wi-Fi and 3G connectivity for cost-saving VoIP.

Avaya is putting all of these tools and capabilities into a single, unified enterprise workspace on iPad devices, delivering a seamless communications experience that is easy to use, convenient, and ready in real time to help you focus on the task at hand.

Implementing Avaya Flare Experience on the widest possible range of devices delivers real "people-centric" collaboration.

Avaya Aura Features on the iPad Device

Take advantage of these real time communications capabilities on iPad devices:

Call history/Contact management
    Local contacts and Avaya Aura contacts
    Index, scroll through contacts
    Filter contacts
    Touch to add contact
    Search for enterprise contacts and touch-to-call from search results
Voice calls
    Mute, Hold, Resume
    Manage up to two concurrent voice calls
    DTMF mode
    Manage your voice messages
    Dial into a voice conference bridge
Instant Messaging
    IM between Avaya Aura endpoints (hard & soft clients)
    Escalate from an IM message to a voice call
E-mails: Launch e-mails from a spotlight or contact card
Presence: Manage your Avaya Aura® Presence status

Multimedia Communications and Presence

With Avaya Flare® Communicator for iPad Device, it is easy to:

- Move back and forth between communications modes: drag and drop voice, IM; access call history and more.

- Keep the right collaboration tools front and center through the Avaya Flare Experience "spotlight".

- Enjoy the presence that's essential for collaboration.

- Easily manage personal and enterprise directories, preferences, filters, etc. with the contact fan on the screen of the iPad device.

- Access enterprise Avaya Aura® features from the office, on the road or at home.

Easy Installation and configuration

For installation, simply download the application from the iTunes store, provide a Session Manager IP address, domain, enterprise directory, and (optional) presence server IP address—and you are ready to go.

Why Avaya Flare Communicator for iPad Device

- Simplify access to the tools your employees rely on constantly (phone, presence, IM, etc.)

- Blend real-time communications and business processes such as procurement and sales

- Cost savings: use the iPad device's Wi-Fi or 3G connectivity for VoIP

With its contextual, people-centric design, the Avaya Flare Communicator for iPad Device makes communications and collaboration easier and more convenient than ever before.
