

The Power of We™

# Avaya Aura® Suite Licensing

## Simplifying the Path to Collaboration

Avaya Aura®, a breakthrough, session-based architecture, simplifies complex communications networks, reduces infrastructure costs and quickly delivers voice, video, messaging, presence, Web applications and more to employees anywhere.

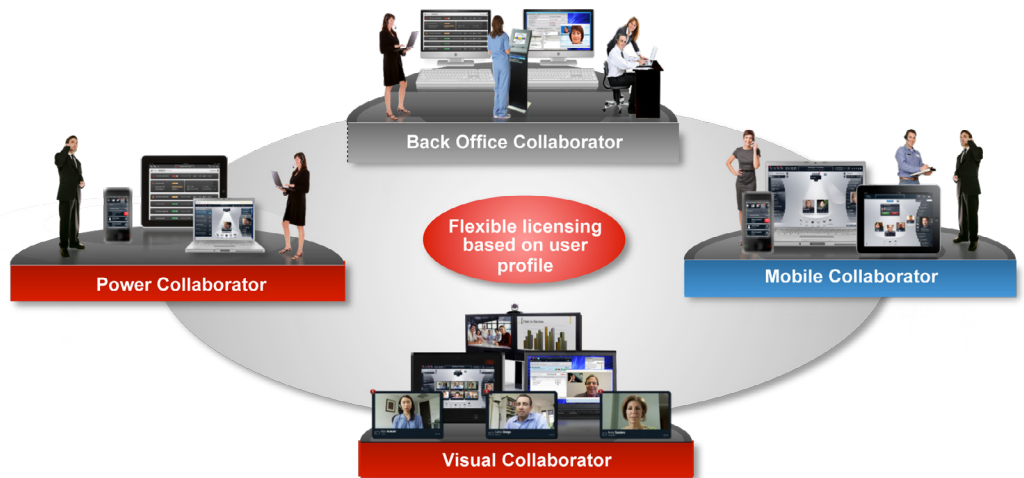

### People-Centric Collaboration

An effective collaboration strategy provides the right tools for the right people - not every tool for every person. Avaya makes it easy for midsize-to-large enterprises to match different user profiles and communication needs with three new Avaya Aura Licensing Suites that map to how and where people work:

- **Foundation Suite:** A rich, scalable enterprise-wide architecture for all types of communication
- **Mobility Suite:** A complete messaging and secure mobility solution empowering remote, mobile and travelling workers
- **Collaboration Suite:** The entire UC experience enabling power collaborators with video and multi-modal conferencing

### Mapping Different People, Roles and Needs to the Right Licensing Suite

Avaya enterprise collaboration brings together the right people with the right information in an environment that delivers business results in real-time.

### Key Customer Benefits

- **Mix and Match Licensing:** Select different licensing suites based on the unique needs of different users to help ensure that the right people are accessible and empowered to make well-informed decisions rapidly - anywhere, anytime
- **End-to-End Solution:** Create a complete collaborative experience through new application features
- **Lower TCO:** Avoid paying for features a user may not require by fine tuning feature selection through mix and match licensing

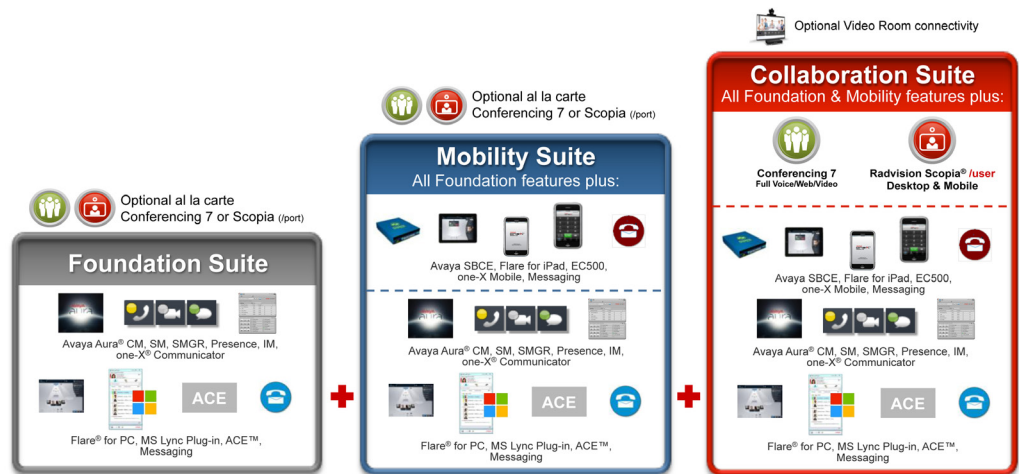

- **Complete Services:** Start with Avaya consulting services for initial business alignment and continue with implementation, support and managed services all the way to fully outsourced and cloud solutions. Avaya Services provides a comprehensive and robust suite of offers to ensure that end-users are able to collaborate consistently and predictably.
